

FIG. 1

FIG.2

FIG.2 is a detailed cross-sectional diagram of a multi-lens optical system. The diagram shows a series of lenses (1, 2, 3, 4, 5, 6, 7) and a series of curved surfaces (8.81, 8.82, 8.83, 8.84) forming a fan-shaped structure. The system is labeled with various components and dimensions. Key labels include 1, 2, 3, 4, 5, 6, 7, 8.81, 8.82, 8.83, 8.84, 9.91, 9.92, 9.93, 9.94, 12, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 60, 70, 71, F21, F22, F23, F24, Z2, and 02. Dimensions f21, f22, f23, and f24 are indicated at the bottom. The diagram illustrates the optical path and the mechanical structure of the system.

FIG.18

Fig. 1 is a cross-sectional view of a multi-layered structure. It shows a central core (100) with multiple layers (200, 300, 310, 320) and a base (500, 501, 510). Arrows indicate light (L) and light rays (LR) passing through the layers. A dashed line XX indicates a cross-section.

A cross-sectional view of a substrate 300. The substrate has a top surface 301 and a bottom surface 320. The bottom surface 320 is wavy, with the wavy portion labeled 310. The substrate is shown with diagonal hatching on the right side.
